NOTE: THIS IS A NEW CONTRACT.

BID NO: FV6925

This contract covers only those items listed in the price schedule. It is the responsibility of the agency to ensure that other items purchased are invoiced separately. State agencies will place orders directly with the vendor (creating a PG in Finet) and make payments for the same on a PV referencing the original PG. Agencies will return to the vendor any invoice which reflects incorrect pricing

MODEL	DESCRIPTION	PRICE
US300	McGregor 300 gallon weed sprayer, skid mounted, engine driven.	\$5,893.00

The units shall include steel or aluminum frames, which will be used for lifting the sprayers on to flat bead trucks. The spray systems will be used for weed control an roadsides. The systems shall be new units of manufacturer's most current model.

Components shall be of top current engineering and manufacturer practices. All components shall be of proper requirements for the sprayers and of proper design to safely withstand maximum stresses imposed.

Any attachments, accessories, tools or other components normally furnished as standard equipment and necessary to the efficient operation of the weed sprayers shall be furnished

Weed sprayers are to be delivered to the ordering agency or political subdivision completely assembled, tested, calibrated and ready for use. They must meet current State and Federal safety regulations. All prices are to be quoted as FOB destination.

Tanks

Must have a 300 gallon minimum capacity. Made of poly material with molded legs and shall include all plumbing items, such as valves, hoses and fittings. To have stainless steel, or equivalent, mechanical agitation system installed in the tank. If belt driven assemblies are used to drive pumps and mechanical agitation system, shafts shall be held secure with pillow block bearings or equivalent.

Frame

The sprayers shall have a steel or aluminum frame extending above the top of the tank with a central lifting point for proper balance.

Electric Reel

To have 300 feet minimum of ½ inch vinyl or equivalent pressure hose rated @ 600 P.S.I. minimum.

To have a manual hose reel, with guide rail, mounted for 300 feet minimum of hose.

Pump

To have a Hypro-D70 pump, diaphragm with regulator rated 19 gpm and 290 P.S.I. or equivalent.

Spray
